JOB OBJECTIVE

As an IT student with hands-on experience in web and mobile development, I excel at creating user-centric solutions that enhance engagement and functionality. I quickly adapt to emerging technologies to deliver results in dynamic environments. My goal is to contribute innovative and practical solutions to every project I undertake.

PROFESSIONAL EXPERIENCE

Taqueen Contracting Company - Part Time Sep 2022 – Dec 2022
Full Stack Developer

- Developed and launched a responsive and user-friendly website, improving the company's digital presence.
- Collaborated with stakeholders to align the website design and functionality.

ZINC Jordan Sep 2022 – Nov 2022
Entrepreneurship Training

- Developed a strong foundation in entrepreneurship, leadership, and digital transformation, gaining hands-on experience in digital marketing, design thinking, website development.
- Enhanced business acumen and innovation skills through expert-led sessions, networking with industry professionals, and practical applications of startup strategies, LinkedIn optimization, and business growth techniques.

EDUCATION

Al-Hussein Technical University 2021 - 2025
Bachelor of Science in Computer Science

PROJECTS

رَدْنِي | Researcher Project

- Improved accessibility to Arabic research content, aiding researchers in understanding academic papers more efficiently.
- Developed a Flutter app with Firebase to summarize and translate research papers into Arabic using Translation APIs.

Vital Guard | Healthcare Application

- Built a Next.js app to help patients schedule appointments and connect with hospitals.
- Streamlined the appointment process, improving patient-hospital communication.

VOLUNTEERING

Google Developer Student Club | Core Member Aug 2022 - Aug 2023

- Led multiple sessions, including a Flutter Bootcamp.
- Learned to use multiple tools and technologies
- Helped GDSC achieve the Best Educational Initiative in the MENA region.
